Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the above-identified application.

Listing of Claims:

1.   (Previously presented)   A   method   for   competitive   peer programming comprising:

enabling a first developer to make changes to a first section of source code thereby producing a first modified section of code;

testing said first modified section of code to produce a first test result;

enabling a second developer to make changes to the first section of source code thereby producing a second modified section of code;

testing said second modified section of code to produce a second test result;

comparing said first test result with said second test result; and

replacing the first section of source code with either the first modified section of code or the second modified section of code based upon the comparison.

2-20.   (Canceled)

21.   (Previously presented)   The method of claim 1, further comprising:

comparing the first and second test result with a references test result; and

either replacing the first section of source code with the first modified

section of source code or the second modified section of source or

not replacing the first section of source based upon the comparison

of the first, second and reference test results.

22.   (Previously presented)   The method of claim 21, wherein the

reference test result is produced from an unmodified version of the first section of source

code.
